

I have become aware of the idea of new LPFM stations taking over the current FM translator service. I believe that this would be a disastrous idea. The K-Love radio station is a station that I enjoy that has the possibility of being replaced by an LPFM station. The K-Love radio station is one way to get out of the poor morales of every day life. If replaced it could cause a rapid morale decline in the every day person. K-Love has made many families happy because of K-Love's family-friendly programing. Thank you for your time.
